

# Planning Department Functions

Specific functions of the Department include processing applications for multi-family residential, commercial, and industrial development through a formal review and approval process, as well as coordinating the updating of the City's Comprehensive Plan and implementation of the Comprehensive Plan's policies. The Department also processes applications for proposed Comprehensive Plan Amendments, Subdivision Regulation Amendments, and Zone changes.

This site provides at no cost to the taxpayer – printable forms, regulations, maps, agendas, minutes, and public notices. In addition, the complete Zoning Regulations and Subdivision Regulations are available onsite for viewing or printing. (The latest hardcopy edition available from the Department of Planning is authoritative in the event of any difference between any document and the online copy.)
