

Planning Department

Purpose

The primary purpose of the Planning & Zoning Department is to administer and enforce the City of Bryant Zoning Code and Comprehensive Plan. The Department accomplishes this primary purpose by providing information, technical assistance, and comprehensive project review in response to requests for development proposals and development related proposals including subdivision plats. The Department provides staff support to the City Council, Planning Commission, and Board of Adjustment, as well as various special committees, and coordinates with other City departments, agencies, organizations, and individuals to ensure the free exchange of information on planning and environmental issues of local and regional importance.
